

## 02 Country Girls

1.) Mary Lou's a villager of Rustic Green  
She has got the reddest cheeks I've ever seen  
Ooh, she is rocking a way (she is rocking a way)  
That makes me melt away  
Roses never grow as red  
As in a country flower bed

2.) I met Sally in time of prosperity  
This honey made from blossoms cast a spell on me  
Ooh, she is rocking a way (she is rocking a way)  
That makes me melt away  
Honey never tastes as sweet  
As from a swarm of country bees

R.) Country girls heal my soul, country girls heal my soul  
When I feel a touch of country  
My heart is gonna rock and roll

3.) Monica is coming from a farmers land  
She has got two arguments I cannot stand  
Ooh, she is rocking a way (she is rocking a way)  
That makes me melt away  
Milk can never be as white  
As from the healthy countryside

R.) Country girls heal my soul, country girls heal my soul  
When I feel a touch of country  
My heart is gonna rock and roll

B.) Country girls are pretty and lovely everywhere  
Country girls are ready for a love affair  
Country girls are glowing like the morning star  
Sometimes they are flowing away like a river
